Idaho's so called "Sodomy Law" makes felons out most the state's citizens-- just because they may have engaged in ordinary, consensual lovemaking -- including oral sex.

Under the Idaho's law, citizens, whether straight or gay, can be sentenced to five years to life in prison if found guilty.

IS THIS REALLY THE GOVERNMENT'S BUSINESS?

Idaho already has laws criminalizing non-consensual aspects of this statute.

An Idaho appeals court has already found this law to be unconstitutional as applied to married couples.

These century old "Infamous Crime Against Nature" laws have already been repealed or struck down by courts in 34 states. Idaho is one of only 16 states with this law still on the books.
